Internship

Full Stack Developer Intern , Spherenex (Nexspyder Technologies Pvt Ltd)	Feb – June 2026 Bengaluru
- Developed and maintained full-stack web applications using Java, Python, React.js, and Firebase. - Designed and integrated REST APIs, enabling seamless frontend-backend communication and efficient data management. - Collaborated on feature development, testing, debugging, and performance optimization to deliver scalable applications.	

Education

B.E in Computer Science , Jain College of Engineering and Research Belagavi CGPA: 8.5	2022 – 2026
Secondary Education / PUC , Govt Pre University College Anavatti Percentage: 83.3	2020 – 2022
10th / SSLC , Karnataka Public School Anavatti Percentage: 79.8	2019 – 2020

Technical Skills

Programming Languages

Java, JavaScript, Python

Backend

Node.js, Express.js, Flask, FastAPI, RESTful APIs

Tools

VS Code, Git, GitHub

Agentic AI & LLMs

LangChain, LangGraph, Groq LLM

Frontend

HTML, CSS, React.js, Streamlit

Databases

MongoDB, Firebase, SQLite

Soft Skills

Problem-Solving, Leadership, Teamwork, Communication

Projects

QuizForge - Full-Stack Tech Interview Preparation Platform

(React.js, Node.js, Express.js, MongoDB)

- Developed an online quiz platform with topic-based assessments, real-time scoring, and leaderboard rankings.
- Implemented secure user authentication and quiz management features to enhance user engagement and learning. Enabled efficient performance tracking and progress monitoring through an interactive dashboard.
- Demo link: <https://quizforge-app-bddn.onrender.com/> 

Movie Discovery Web Application

(React.js, Firebase, TMDB API)

- Built a movie discovery platform allowing users to explore movies, view trailers, browse cast details, and receive recommendations.
- Implemented user authentication and personalized favorite movie management for an enhanced viewing experience.
- Demo link: <https://moviediscovery-app.vercel.app/> 

AI Water Tracker- Smart Hydration Monitoring Platform

(Python, Flask, LangChain, LangGraph, Groq LLM)

- Developed an AI-powered resume analysis platform that extracts skills, recommends jobs, scores resumes, and generates interview questions.
- Implemented a multi-agent workflow using LangGraph for career guidance and cover letter generation.

- Integrated Groq LLM to provide intelligent recommendations and automated resume insights.

AI Career Agent- Multi-Agent Resume Analysis Platform

(Python, Flask, LangChain, LangGraph, Groq LLM)

- Developed an AI-powered resume analysis platform that extracts skills, recommends jobs, scores resumes, and generates interview questions.
- Implemented a multi-agent workflow using LangGraph for career guidance and cover letter generation.
- Integrated Groq LLM to provide intelligent recommendations and automated resume insights.

AI Nutrition Pro- Intelligent Nutrition Tracking System

(Python, Streamlit, Pandas, Groq LLM)

- Built an AI-powered nutrition tracking application for meal logging, calorie monitoring, and macro-nutrient analysis.
- Developed personalized nutrition recommendations using LLM-based dietary analysis.
- Created interactive dashboards for nutrition visualization and progress tracking.

Certificates

- Participated in a National Level 24-hour Hackathon “CODEFIESTA-5.0” at Lakshmeshwar, India.
- Participated in State Level Project Competition organized by Bangalore Institute of Technology, Bengaluru.
